

### WHY BECOME AN ASGA CORPORATE MEMBER?

We are a farmer-founded and farmer-led nonprofit organization of more than one thousand members. ASGA sets the standards and best practices for the solar grazing industry and trains farmers and solar developers to those standards.

By joining ASGA, your team will have access to our extensive solar grazing resources and to our growing network that will help you connect to farmers and ranchers. As an ASGA member, your

company will become part of our unique community where we're building enduring partnerships between farmers and the solar energy industry.

Each corporate membership also supports our farmer training and education programs and the development of new resources for solar graziers and solar firms.

### MEMBERSHIP LEVEL BENEFITS

#### LAMB LEVEL

\$5,000

- Onboarding and orientation session for your employees
- [Access to the ASGA Network](#) for your team members

- Creating new online [Certification Solar Grazing Training Courses](#)
- The opportunity to sponsor in-person [Solar Grazing Certification Training Workshops](#) on your solar sites
- The ASGA Solar Grazing Census
- The development of [soil sampling protocols](#) on solar sites

*"ASGA has been a valuable asset... The ongoing virtual education events do a wonderful job of exposing us to perspectives and experiences we would not otherwise have available. The social networking site provides a great platform for all of us to share information, connect and stay informed. We are proud to be ASGA members and encourage others with any interest in the fast changing solar industry to support this indispensable organization."*

*-Jon Northrop, Northrop Farms*
